

# Welcome to the new AFMRD website & community platform!

We are still in the process of activating various features of this exciting new system. Here's an overview of the features now available to members upon login.

## MEMBER HOMEPAGE

Quick links to your most frequently accessed pages. You can even create your own customized dropdown menu! Using the My Links menu, simply click "add this page" from any page on the site.

Click on the logo anytime to return to the member homepage

The site has a robust search engine that searches entire site, including toolbox, discussion forums, calendars, etc. To search for fellow members, use the "user search" option or open the member directory.

All members are automatically subscribed to the "Members" community. As we create additional communities, you will have the opportunity to subscribe to them – and you will see all your communities listed here.

The toolbox is divided into specific topics.

Search for fellow members via a variety of fields.

The PD Toolbox is divided into specific “drawers” of topics. The “Recent Submissions from the AFMRD Community” drawer is where member-uploaded materials are stored. The Toolbox Task Force will periodically review these materials and place appropriate items in topic-specific drawers

Upload a document to share.

You may search any drawer in the Toolbox.

“Likes” and comments are useful ways for members to learn more about various resources.

You may reply to a thread or start a new thread either on the website or via email to [members@lists.afmrd.org](mailto:members@lists.afmrd.org)
